

VERIFY YOUR DATA

Data Tester

Quickstart

Unpacking

01

Congratulations on your Data Tester. Please check the delivery to make sure everything is included.

Commissioning

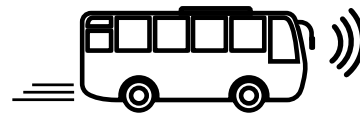

02

Connect the Data Tester to the bus using the cable. Position the antenna inside the window.

Data Acquisition

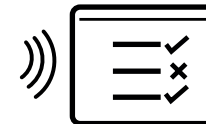

03

During a test drive, the Data Tester collects your data.

Login

04

Get insight into your data: Was everything that was ordered also delivered?

Storage

05

The Data Tester can be stowed back in the case after the trip.
